

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

9 September 1976

Mr. Samuel Hoskinson  
National Security Council  
300 Old Executive Office Building  
Washington, D.C. 20506

Dear Sam:

We are in receipt of a request from the Senate Select Committee on Intelligence for documents on intelligence collection for utilization by the Subcommittee on Intelligence Collection, Production, and Quality in their studies of the intelligence production process as directed by S. Res. 400.

As you know, certain guidelines covering availability of such material have been developed. In addition, it has been determined that material which may be stored safely in the offices of the Senate Select Committee on Intelligence will be transmitted to the Committee. Code word materials will be available for viewing by the Subcommittee members and staffers only at the Headquarters building.

Before releasing or making documents available for inspection, we must have the prior written approval of the National Security Council as the following materials listed below were originated from within or for the National Security Council:

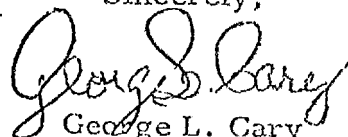

1949 - Dulles, Jackson, Correa Report  
1953 - Jackson Report  
1957 - 58 - Gaither Report  
May 1973 - Material from Andy Marshall, NSC, to DCI

We do not have a copy of the following document and therefore need, in addition to your written approval for release, a copy of the document itself:

September 1967 - Trueheart Report on Radio Free  
Europe and Radio Liberty

Your assistance in this matter is most appreciated.

Sincerely,

  
George L. Cary  
Legislative Counsel
